

GPSC

Lobbying and Trade Associations - Climate Alignment

Public Hearing Thailand Climate Act

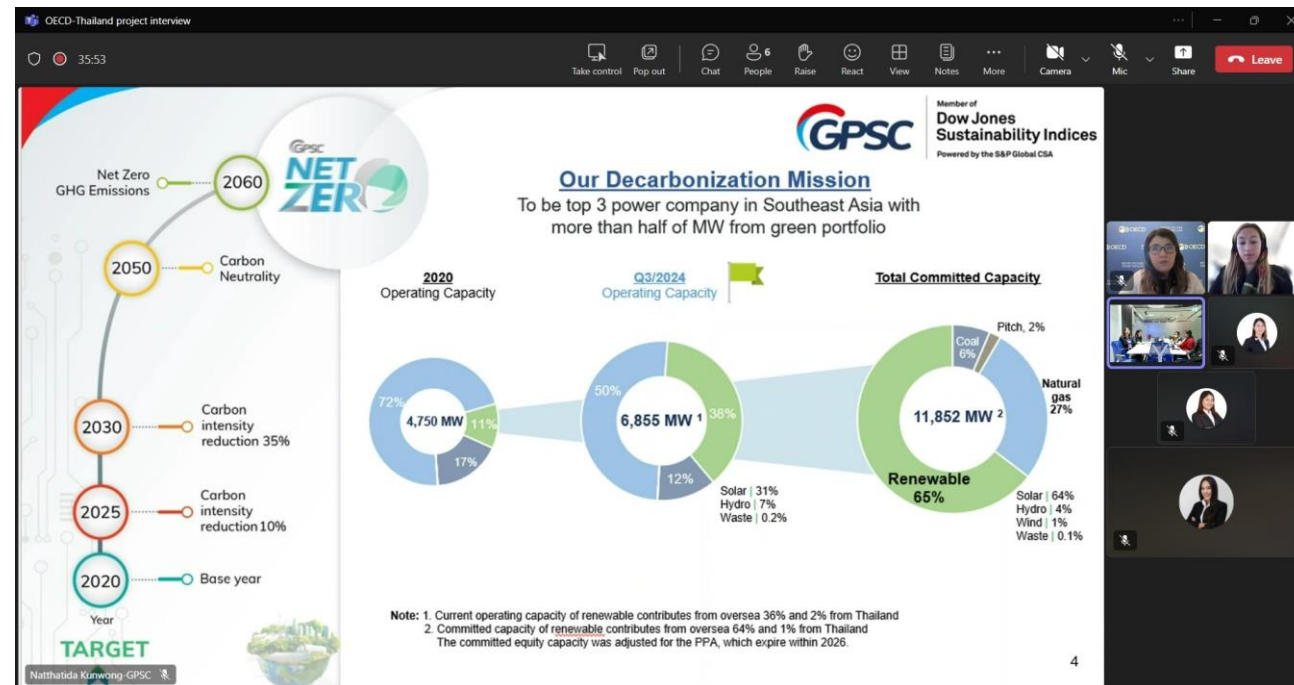

GPSC conducted climate lobbying through providing comment for Thailand Climate Act on the related Power sector topic such as GHG Account, Carbon Tax, Carbon Emission Trading Scheme. Through this session, GPSC aimed to promote actions that benefit both Thailand's climate movement and the company itself, while directly lobbying with government agencies/ policymakers to address these critical issues.

Europe and Thailand in Transition

Sharing Energy Policy Perspective on the road to climate neutrality

GPSC engaged in direct climate lobbying by providing formal input on climate-related policies impacting the power sector. This included sharing comment on Climate Policy which impact for Power Producer such as Renewable Energy Law, Grid development plan, and Future challenges on the path to a climate-neutral electricity system. The objective was to influence policy direction in a manner that supports both national climate goals and the sustainable growth of power producers.

Thank you
