3. Stakeholder Engagement Activities

GPSC regularly conducts stakeholder engagement activities for the past years to meet with local stakeholder, to build local stakeholder capacity, to receive emerging concerns. The following pages are some of our activities with local stakeholders.

Community Engagement Dialogue

(The Side-by-Side Activities)

- To foster strong relationships with surrounding communities and address concerns from stakeholders.
- To share knowledge and experiences with communities on various topics, including Power plant systems, Environmental management, Corporate Social Responsibility (CSR) and Sustainability, CPR training, and Personal Data Privacy & Protection including Cyber Crime.
- In 2024, GPSC engaged with 10 communities, sharing valuable knowledge and experiences with over 300 participants.

Community and School Emergency Drill

GPSC Group is the main company supporting the preparation of community and school emergency plan reports as well as review and conduct emergency drills every year with 2 communities and 2 schools

Nong Bua Daeng Community

Rayong Industrial Technical College

Huai Pong Nai Community

Siriporn Rayong School

Capability Building Activities

Provide the "Run-Hide-Fight" (Active Shooter) Training for youth in the community so that they will learn how to survive in a mass shooting incident and develop survival skills in the life-risking situations covering 5 schools.

Provide trainings for local youth to become part of a participatory environmental monitoring network and to promote environmental awareness through tree planting using natural organic fertilizer.

Evaluation of GPSC sites environmental & Social impact

Eco Factory

Eco Factory is a standard for eco-industrial factories implemented by the Federation of Thai Industries. It includes criteria for stakeholder engagement and support for surrounding communities.

EIA Monitoring Award

EIA Monitoring Awards is an award that recognizes organizations for complying with environmental measures, promoting sustainable development, building confidence among business operators, and serving as a role model for society and other business sectors.

White Flag Green Star

White Flag – Green Star is a project initiated by the Industrial Estate Authority of Thailand (IEAT) aimed at promoting good governance in environmental and safety management for factories located within industrial estates.

GPSC Group Tripartite Committee the EHAI / EIA and CoP conditions

GPSC Group has appointed a tripartite committee comprising representatives from the government, private sector, and local communities to take part in the inspection and monitoring of GPSC Group power plant operations. The committee holds meetings at least twice a year according to the EIA conditions of the respective power plant.

GPSC Group Open House

GPSC Group proudly hosts Open House events to welcome communities, students, and visitors. These events offer a unique opportunity to:

- Tour our power plants and explore how we generate energy responsibly
- Learn about our operations, including environmental management and safety practices
- Discover our commitment to society through Corporate Social Responsibility (CSR) and sustainability initiatives Through these activities, GPSC Group aims to build trust, promote transparency, and inspire future generations with knowledge and innovation.

Engagement with the fisheries group

In 2024, GPSC Group collaborated with 8 local fishing groups in Rayong Province to organize a marine animal release activity, reinforcing our commitment to environmental sustainability and marine biodiversity.

- Released a total of 18,689,615 aquatic animals into the sea
- Strengthened partnerships with local fisheries
- Promoted ecological balance and sustainable marine resources

This initiative reflects GPSC Group's dedication to preserving natural ecosystems and supporting the livelihoods of coastal communities.

Moom Din Farm Agricultural Community Enterprise

GPSC Group serves as a mentor to Moom Din Farm Agricultural Community Enterprise, providing comprehensive support to enhance and strengthen its business capabilities.

- Production Improving agricultural processes and product quality
- Marketing Expanding market access and brand awareness
- Management Enhancing operational efficiency and strategic planning
- Finance Strengthening financial literacy and sustainability

This collaboration empowers the enterprise to grow sustainably and remain competitive in the market, reflecting GPSC Group's commitment to community development and inclusive growth.

Community Cultural and Traditional Engagement

At GPSC Group, we value the richness of local heritage and are committed to preserving and promoting cultural identity. We actively participate in and support a wide range of community-based cultural and traditional activities, including:

- Local festivals that celebrate community spirit and traditions
- Religious and cultural ceremonies that honor local beliefs and customs
- Significant community events that strengthen social bonds and unity

Through these efforts, GPSC Group fosters strong relationships with communities while helping to preserve the unique cultural fabric of the regions we serve.

4. Local Stakeholder Impact Assessment

According to our Local Stakeholder Engagement Framework and Guideline, GPSC regularly conducts local stakeholder impact assessment and survey of perceptions for local stakeholders. The following page is our examples.

Local Stakeholder Impact Assessment: EIA &

First or our is committed to environmental responsibility and community engagement through regular assessments of local stakeholder perspectives. Environmental Impact Assessment (EIA) & Environmental Health Impact Assessment (EHAI) To meet regulatory requirements and ensure transparency, GPSC conducts annual public opinion surveys around its power plants. These surveys are carried out by an independent consulting firm.

- Coverage Area: Within a 5 km radius of GPSC Group power plants
- Target Groups:
 - Relevant government agencies
 - Residents in sensitive areas
 - Community leaders
 - Household representatives
- Sample Size: Approximately 300–400 participants
 This process helps GPSC understand community concerns,
 improve environmental practices, and foster trust with stakeholders.

Example : Summary Report on Public Opinion Survey Results

Local Stakeholder Impact Assessment: No Complaints Received

GPSC Group has received official certification from local authorities confirming that no complaints have been reported by surrounding communities regarding the company's operations.

Certification Highlights:

- Issued by local government agencies
- Reflects positive community relations and responsible operations
- Demonstrates GPSC Group's commitment to transparency, environmental stewardship, and stakeholder engagement This recognition reinforces our dedication to maintaining trust and harmony with the communities we serve.
